WELCOME NOTE for all PARTICIPANTS OF ICION 6TH CONFERENCE, YOGYAKARTA 2018

Happy Chinese New Year Breaks for all locally and Best Wishes for all friends/partners/community that celebrated

We are counting down to the final weeks to ICION 6th Conference in Yogyakarta scheduled for 05th to 07th of March 2018 for the first time.

CXOs/Senior Managers large enterprises whom qualify for a passes ping to icion2018.yogya@gmail.com for more information. Passes are limited, we forecast a larger crowd of more than 140 people (ICION, sponsors, close associates) at Yogyakarta on first week of March

Latest bits of news :

a. First time we have Check Point Software participating as sponsor in ICION 6th Conference

Bruce Chai from the Singapore team will be speaking on Day Two in the ballroom.

b. Rubrik, just confirmed their participation first time.

Rubrik, Inc. develops and offers a converged data management system and platform with hardware that offers backup and recovery-related functionality.

More on this link here : https://www.rubrik.com/

c. Bitglass Next-Gen CASB delivers agentless Zero-Day data & threat protection for any app, any device, anywhere. It is Bitglass second ICION conference and we have now industry veteran Frankie Lim leading their APAC biz.

d. Kaskus & GDP Venture Pak On Lee will be presenting a topic Digital Augmented Intelligence System. Machine Learning & Deep Learning which falls into the domain of AI is probably the most disruptive technology in the computing industry today.

Let hear from a leading Indonesia player their view on this area.

e. Tenable (https://www.tenable.com/): It is Tenable first official ICION as a Sponsor. Tenable.io, the world's first Cyber Exposure platform, arms Security with the visibility to see their entire cyber-attack surface at all times (from IT to Cloud to IoT to OT) and arms the CISO, C-suite and Board of Directors with the insight to focus on the issues which matter most and make better strategic decisions.

Tenable is the Cyber Exposure Company to Listen and Watch.

e. **Magnet Forensics** (https://www.magnetforensics.com/)

Magnet Forensics is a global leader in digital investigative technology and was built on a foundation of helping and empowerment. We help investigative teams find more evidence and empower them to uncover the truth.

They score two firsts with this participation. First time we have a forensics vendor in our exhibition booths.

Longest distance to travel to Yogyakarta as their company is HQ in Canada.

f. Panel Discussion: Dhany Sulistyo of IBM Enterprise Security Team will be on the panel. This is the second panel planned in a ICION conference following last year first time panel discussion which comes on very well.

g. **Graha Teknologi Nusantara** (http://gtndatacenter.com/) will be exhibiting at the conference first time. A collaboration between Lippo Group and Mitsui Japan, PT Multipolar Technology Tbk has established GTN Data Center. GTN's vision is to be the Leading DC Service Provider in Indonesia, with Japanese Quality DC standards offering only state-of-the-art services to clients

See news below on the Lippo Group big investment into data center here

http://www.datacenterdynamics.com/content-tracks/design-build/lippo-group-to-inject-millions-into-new-indonesia-data-center/94392.fullarticle

h. **Labris Networks (http://labrisnetworks.com/):** It is Labris Networks second ICION sponsorship.

Labris Networks was founded in 2002 and headquartered in Ankara, Turkey with offices at Warsaw and Istanbul.

Labris Networks specializes in DDoS mitigation, NG Firewall, Unified Threat Management, Centralized Management, Regulatory Compliances and SOC/CERT Services. The company offers products and services to different industry verticals which include government, IT & Telecom, military, financial services, healthcare, education and others.

The company has a diversified clientele across geographic regions such as Eastern Europe, MEA and Asean in 20 countries. Being one of the Common Criteria EAL4+ certified global security gateway brands; Labris products protect enterprises, brands, government entities, service providers, and mission-critical infrastructures.

Lastly, (ISC)2 https://www.isc2.org/ has formally announced their continued endorsement of the ICION series of conference making them our longest and most committed patron for the conference. With the formation of the (ISC)2 Indonesian Chapter finally in place, we hope that 2018 will be a great year for (ISC)2 supported activities locally

A special mention also to pak Rudi Rusdiah, Chairman of ABDI and editor of Komite.id magazine (http://komite.id/) whom has done more than his fair share to give attention and branding to the coming 6th ICION conference.

A link to the article on the conference is here : http://komite.id/2018/01/23/indonesian-cio-network-conference-yogya-5-7-march-2018-shaping-securing-indonesian-digital-economy/

Looking forward to meeting all old friends, fellow community members, participants in Yogyakarta and also my co-founder William Ho (何添福).

Also a special thank you to the advisory board (https://www.icion-leadership.com/advisory-2018.html) this year for advice and connections for invites to ICION Conference.

Sincerely

Ray M. Sugiarto, Co-Founder, ICION

Date : 18th of February 2018
